Metallurgia — Index to Volume 52

JANUARY — DECEMBER 1985

A

Acoustic methods of non-destructive testing ... 410
Advanced materials, UK exhibition spotlights ... 306
Aerospace, advanced metalforming for ... 16
Aluminium alloy road wheels, heat-treatment furnaces for ... 273
Aluminium alloys for engineering applications ... 309
Aluminium extrusion applications, new developments open up ... 277
Aluminium heat-treatment furnaces at National Luxalum ... 146
Aluminium processing ... 270
An industry transformed — 50 years of casting ... 455
Automatic forging plant features high capacity and short re-setting time ... 170

B

Bacol Cylinders boosts production with D.D.I. investment ... 264
BFIA discusses high-technology forging concepts ... 4
BFIA discusses high-technology precision forging ... 93
BFIA holds successful conference ... 480
Billet preparation for warm forging ... 68
Brass & Alloy Pressings Ltd. uprates forging capability 267
Brasses, free-machining ... 31
British metallurgy in development ... 434
Burners and elements in action ... 289

C

Cabot Alloys reports major growth in Manchester operations ... 466
Cameron Iron Works Ltd. wins the Forging of the Year trophy ... 482
Cast irons, malleable ... 70
Cast preforms in the manufacture of edge tools ... 359
Casting, 50 years of ... 455
Casting, investment, 50 years of ... 458
Cincinatti — equipment focus in ... 180
Cold forging — a success story from Japan ... 9
Cold forging highlighted at international congress ... 386
Cold forging, international congress spotlights ... 263
Cold forging, TI Sturmey Archer gears up for ... 349
Continuous casting systems, upward ... 241
Continuous casting, wire rod line revolutionises ... 245
Continuous extrusion, low cost molten feed boosts ... 243
Control and instrumentation boosts production in the metals industry ... 202
Control of silicon carbide heaters ... 200
Correct billet preparation for warm forging ... 68
Combustion, heat sources and ... 285

D

D.D.I. investment, Bacol Cylinders boosts production with ... 264
Design reconsiderations show benefits in drop forging manufacture ... 356
Developments in electroheat equipment for metal processing ... 484
Development in radiant tube technology ... 65
Developments in metal surface technology ... 218
DFRA meeting reflects changing times, changing needs ... 227 & 260
DFRA, the way forward for ... 169
Die-forging and heat-treatment integrated in automatic line ... 230
Diffusion process, Toyota ... 59
Drop forging manufacture ... 356
Dudley Drop Forging gets an uplift ... 363

E

Edge tools, cast preforms in the manufacture of ... 359
Electric melting, process benefits with ... 461
Electricity awards, metals firms take top places in ... 158
Electroheat equipment for metal processing ... 484
Elements, burners and, in action ... 289
Energy economy in the metal industries ... 154
Energy economy means a total approach for McKechnie Metals ... 154
Environment and safety ... 212
Eurofour '85 — furnace focus on Paris show ... 224
Eurofour '85 preview ... 88
Eurofour '85 review ... 134

F

Fatigue behaviour of investment cast steels ... 103
50 years of development in metal forming and fabrication ... 450
50 years of investment casting ... 458
Flight refuelling — salt bath furnace for ... 270
Fluidised bed furnaces ... 29
Forgemaster, pioneer, looks to the future ... 366
Forging capability, Brass & Alloy Ltd. uprates ... 267
Forging, cold, highlighted at international congress ... 386
Forging, cold, TI Sturmey Archer gears up for ... 349
Forging concepts, BFIA discusses ... 4
Forging: Co-operation and restructuring — the way forward for DFRA ... 169
Forging, Dudley Drop, gets an uplift ... 363
Forging: equipment focus in Cincinatti ... 180
Forging, high technology precision ... 93
Forging, hot . . . to forging, warm ... 353
Forging, international congress spotlights cold ... 263
Forging, large drop . . . from Linz ... 96
Forging manufacture, design reconsiderations show benefits in ... 356
Forging, modern brass ... 345
Forging of the Year trophy ... 482
Forging plant, automatic ... 170
Forging, precision, of steel ... 338
Forging press, high energy ... 40
Forging technology ... 180, 296, 338
Forging today ... 40, 302, 370
Forging today: DRFA meeting reflects changing times, changing needs ... 227 & 260
Forging, warm ... 68
Forming needs, hydraulic press meets special ... 188
Forming symposium highlights latest technology ... 296
Free-machining brasses show recent improvements ... 31
Furnace developments, recent ... 388
Furnace equipment buyers guide ... 511
Furnace, salt bath — just in time for Flight Refuelling ... 270
Furnace technology, gas ... 462
Furnaces, heat-treatment, for aluminium alloy road wheels ... 273
Furnaces — news, equipment, application studies ... 498

G

Gas firing, recent advances ... 24
Gas furnace technology, 30 years of ... 462
GEM awards 1984 ... 54
Graphites, special, used for non-ferrous melts ... 397

H

Heat is on for Paris show ... 88
Heat sources and combustion ... 285
Heat-treatment, die-forging integrated ... 230
Heat-treatment — 50 years on ... 440
Heat-treatment furnaces, aluminium ... 146
Heat-treatment furnaces for aluminium alloy road wheels ... 273
Heat-treatment: new boost for ... 322
Heat-treatment: process and equipment ... 463
Heat-treatment processes and systems — a review ... 234
Heat-treatment, reheating and ... 164
Heat-treatment technique ... 70
Heat-treatment technology ... 41
High temperature technology, major advances in ... 153
High-pressure gas quenching in vacuum furnaces ... 50
Hot-forging art to warm-forging science ... 353
Hydraulic press meets special forming needs ... 188

I

Imaging techniques enhance material integrity evaluation ... 406
Inco expands mechanical alloying ... 464
Induction boosts production cost savings ... 72
Industrial applications of shape memory alloys ... 318
Industrial heritage: bringing the past to life ... 248
Influence of processing route on the fatigue behaviour of investment-cast high-strength steels ... 103
In-line induction boosts production cost savings ... 72
Inspex '85 preview ... 73
International congress spotlights cold forging ... 263
Investment cast high strength steels ... 103
Investment casting ... 99
Investment casting, 50 years of ... 458

J

Japan, cold forging — a success story ... 9

L

Large drop forgings from Linz — efficient technology for special uses ... 96
Legal liability, new product quality, an overview ... 404
Linz, large drop forgings ... 96
Low-cost molten feed boosts continuous extrusion ... 243

M

Major advances in high temperature technology ... 153
Materials Engineering in focus at London show ... 413
McKechnie Metals, total approach for ... 154
Melting and holding — around the industry ... 397
Melting and holding: recent furnace developments uprate melting and holding operations ... 388
Metal firms take top places in Electricity Awards ... 158
Metal forming ... 264
Metal forming and fabrication, 50 years of development 450
Metal reclamation ... 117
Metal reclamation — technology and equipment in focus ... 118
Metallurgia's 50th Anniversary ... 434
Metallurgy, British, in development ... 434
Metals in aerospace ... 16
Metals industry, control and instrumentation ... 202
Metlab ... 120, 249, 373, 520
Modern brass forging ... 345
Modern heat-treatment processes and systems — a review ... 234
Modern heat-treatment technique boosts production of malleable cast irons ... 70

N

National Luxalum, aluminium heat-treatment furnaces at ... 146
NDT extends its boundaries ... 402
New developments open up aluminium extrusion applications ... 277
New product quality and legal liability — an overview 404
Nickel-based alloys ... 464
Nitrotec surface treatment process shows its mettle ... 41
Non-destructive testing, acoustic methods of ... 410
Non-ferrous ... 31
Non-ferrous continuous forming ... 241

O

'Open House' highlights high energy forging press ... 40

P

Pioneer forgemaster looks to the future ... 366
Plasma thermochemical treatments ... 492
Powder-to-strip producer boosts capacity ... 470
Precision components — investment casting manufacturing route ... 99
Precision forging of steel ... 461
Process control ... 200
Production progress with advanced metalforming for aerospace ... 16

Q

Quality, new product, and legal liability — an overview 404
Quality testing ... 402
Quality testing — what's new in equipment and applications ... 411

R

Radiant tube technology, development ... 65
Recent advances show benefits for gas firing ... 24
Recent developments boost environmental control and safety ... 212
Refractories: focus on materials, installation and application studies ... 326
Regenerative burners make an impression in the metals industry ... 285
Reheating and heat-treatment — latest developments revealed at recent meetings ... 164

S

Salt bath furnace — just in time for Flight Refuelling ... 270
Shape memory alloys, industrial applications ... 318
Silicon carbide heaters, control of ... 200
Sintering of powder compacts in fluidised bed furnaces 29
Special graphites used for non-ferrous melts ... 395
Steel, forging of ... 338
Surface technology, developments in metal ... 281
Surface treatment process, Nitrotec ... 41
Surface treatment ... 281

T

Thermal processing ... 24
Thermal processing in Germany ... 230
30 years of gas furnace technology ... 462
TI Sturmey Archer gears-up for cold forging ... 349
Tin — the established advanced material ... 320
Toyota diffusion process shows advantages ... 59

U

UK exhibition spotlights advanced materials ... 306
Upward continuous casting systems proves successful worldwide ... 241

V

Vacuum metallurgy in metal processing ... 191

W

Why recycle? ... 117
Wire rod line revolutionises continuous casting ... 245

Y

Yorkshire's growth engineering industries ... 322

AUTHOR INDEX

Besler, H. ... 395
Bewick, J. ... 455
Booth, M. ... 492
